

ASSOCIATE MEMBERSHIP

Welcome to Northwest Certified Forestry (NCF), a non-profit membership and services program developed by Northwest Natural Resource Group (NNRG) to assist small forest landowners in Oregon and Washington with optimizing the economic and ecological potential of their forestlands.

For more than 20 years, NNRG has worked with landowners in the Pacific Northwest to steward forests for both ecological health and economic viability. We focus on the smaller woodlands owned and managed by private landowners, smaller forest product companies, governmental agencies, and nonprofit organizations.

We help landowners care for forests ranging from small woodlots to watersheds. NCF strives to promote the highest level of conservation-based forest management. Forest Stewardship Council® (FSC®) certification is one tool we use to provide recognition to forest owners who are careful stewards of their forests.

Associate membership is open to any landowner, individual, organization, company, or government entity. It is primarily for individuals and groups who do not wish to receive direct forest management assistance from NCF, but who would like to support our organization, receive our newsletter and receive special members-only announcements.

Associate members have access to the following benefits:

- 20% or greater discount to all NCF sponsored workshops and events over \$35
- Referrals to consulting foresters, loggers and other high quality natural resource professionals through our *Preferred Provider Program*
- Forest inventory guidebook and software
- Monthly newsletter
- Access to member-exclusive events

For landowners and managers who are interested in receiving management planning or forest assistance, or are interested in Forest Stewardship Council certification - we recommend becoming a Conservation or Certified member of NCF.
