

Washington Targeted Resource Concern by Zone

Zone 1

Degraded Plant Condition
Inefficient Energy Use
Field Sediment, Nutrient & Pathogen
Loss
Soil Quality
Terrestrial Habitat
Pest Pressure
Field Pesticide Loss
Livestock Production Limitations

Zone 2

Degraded Plant Condition
Livestock Production Limitation
Field Sediment, Nutrient & Pathogen Loss
Terrestrial Habitat
Wind and Water Erosion
Fire Management
Pest Pressure
Soil Quality Limitations

Zone 3

Degraded Plant Condition
Field Sediment, Nutrient & Pathogen Loss
Soil Quality
Source Water Depletion
Wind and Water Erosion
Inefficient Energy Use
Terrestrial Habitat
Pest Pressure

Zone 4

Air Quality Emissions
Degraded Plant Condition
Soil Quality
Wind and Water Erosion
Field Pesticide Loss
Terrestrial Habitat
Field Sediment, Nutrient & Pathogen Loss
Pest Pressure

Zone 5

Air Quality Emissions
Degraded Plant Condition
Soil Quality
Wind and Water Erosion
Field Pesticide Loss
Terrestrial Habitat
Field Sediment, Nutrient & Pathogen Loss
Pest Pressure

Non-industrial Private Forestland

Degraded Plant Condition
Livestock Production Limitation
Field Sediment, Nutrient & Pathogen Loss
Terrestrial Habitat
Wind and Water Erosion
Fire Management
Pest Pressure
Soil Quality
